

easy as 1-2-3

Honeywell's NStar Access Control System is like being on easy street.

You don't have to use a road map to install Honeywell's NStar Access Control System. In fact, with three simple steps, installing NStar is easy as 1-2-3. Step 1—Install hardware using the Fast Mounting and Wiring System, Step 2—Install software with Quick Start Wizards and then breeze through configuring panels and readers, and Step 3—Add users and experience NStar's easy-to-use platform, features, and functionality. So go ahead. Cruise down easy street. Because whether you're installing one door or many—whether your business is retail, commercial, financial, or something else—Honeywell makes the installation of NStar access control software easy as 1-2-3.
